

Animal Health Record Keeping Template

Template prepared by Chemvet Australia

COMPANY NAME: _____

Section 1 – Chemical Inventory

This inventory table and recording system can be used for veterinary chemicals as well as other agricultural chemicals. Record product details accurately and then write the product code onto the actual product container for your on-the-go livestock treatment record.

Internal Product Code	Date Received	Product Name	Quantity/ Volume Received	Batch Number	Expiry Date	Dose Rate	Withholding Periods (WHP, WHI, ESI)
A1 Example	1/1/26	Vetmec Moxiguard Long Acting Injection for Sheep	3 x 500mL	XYZ1234	1/1/2028	1mL / 20kg	Meat: 91 days, ESI: 133 days.

Section 2 – Livestock Treatment Record

This section is for recording your livestock treatments ‘on-the-go’. If it’s easier, you can write them in one of our Vetmec Pocket Notebooks or the ‘Notes App’ on your phone, using a similar format.
